## VOLUME 77 • SUBJECT INDEX

- 46,XX,16qh+, Chromosomal and clinical features in an infant with Hallermann-Streiff syndrome: *letter*, 184
- abdominal wall defects**, The survivors of gastroschisis, 158
- abscesses in dermoid cysts**, Extradural dermoid tumours of the posterior fossa, 427
- academic medicine**, Clinical lecturer posts under threat: *letter*, 186
- UK paediatric clinical research under threat: *letter*, 186
- academic paediatrics**, Death of the general paediatrician?: *controversy*, 364
- accident and emergency treatment**, Minor head injury: *current topic*, 82
- acknowledgments**, Acknowledgment and authors: *letter*, 187
- acute diarrhoea**, Randomised controlled trial of zinc supplementation in malnourished Bangladeshi children with acute diarrhoea, 196
- acute glomerulonephritis**, An epidemic of acute postinfectious glomerulonephritis in Armenia, 342
- acute lower respiratory tract infection**, Impact of HIV on mortality from acute lower respiratory tract infection in rural Zambia, 227
- acute respiratory infections**, Local variability in respiratory syncytial virus disease severity, 410
- acylcarnitines**, New developments in neonatal screening: *current topic*, F151
- admission rates**, Illness severity measured by CRIB score: a product of changes in perinatal care?, F211
- adolescence**, Birth weight and body fat distribution in adolescent girls, 381
- Early onset of diabetic nephropathy, 524
- Sports injuries in children: should we be concerned?: *rheumatology*, 161
- The adolescent with rheumatic disease: *rheumatology*, 355
- adolescent health**, Adolescent health services—through their eyes, 115
- aging**, Aging and paediatric practice: *editorial*, 375
- Aging and paediatric practice: *editorial*, F161
- Aging of the placenta: *editorial*, F171
- AIDS orphans**, The needs of children whose mothers have HIV infection, 483
- albumin**, Randomised controlled trial: comparison of colloid or crystalloid for partial exchange transfusion for treatment of neonatal polycythaemia, F115
- allergic sensitisation**, Extensively and partially hydrolysed infant formulas for allergy prophylaxis, 4
- allergy prevention**, Extensively and partially hydrolysed infant formulas for allergy prophylaxis, 4
- alveolar-arterial oxygen gradient**, Randomised trial of volume controlled *versus* time cycled, pressure limited ventilation in preterm infants with respiratory distress syndrome, F202
- ambulatory paediatrics**, Planning for the future: the experience of implementing a children's day assessment unit in a district general hospital, 287
- amino acids**, New developments in neonatal screening: *current topic*, F151
- anaesthesia**, Sedation for invasive procedures in paediatrics: *annotation*, 281
- Use of methohexital for elective intubation in neonates, F61
- androgen insensitivity syndrome**, Androgen insensitivity syndrome: a survey of diagnostic procedures and management in the UK, 305
- antenatal information**, Gestational assessment assessed, F216
- antibodies**, Hepatitis B vaccination in preterm infants, F135
- antiendomyosial antibodies**, Late development of IgA antiendomyosial antibodies and small intestinal mucosal atrophy after insulin dependent diabetes mellitus onset: *letter*, 465
- antineutrophil cytoplasm antibodies**, Antineutrophil cytoplasm antibodies and vasculitis: *rheumatology*, 261
- antinuclear antibody test**, Usefulness of antinuclear antibody testing to screen for rheumatic diseases, 299
- antioxidants**, Effects of antenatal and postnatal corticosteroids on the preterm lung: *current topic*, F147
- antiporcine trypsin IgG**, Is fibrosing colonopathy an immune mediated disease?: *hypothesis*, 66
- Apgar scores**, Illness severity measured by CRIB score: a product of changes in perinatal care?, F211
- apoptosis**, Apoptosis in neural development and disease: *editorial*, F165
- Arabic**, Avicenna (AD 980–1037) and Arabic perinatal medicine: *perinatal lesson*, F75
- Armenia**, An epidemic of acute postinfectious glomerulonephritis in Armenia, 342
- arrhythmia**, Outcome of fetuses with heart disease diagnosed in utero, F41
- Asian**, Comparison of Asian and English non-attenders at a hospital outpatient department, 423
- assisted ventilation**, Randomised trial of volume controlled *versus* time cycled, pressure limited ventilation in preterm infants with respiratory distress syndrome, F202
- asthma**, Achieving treatment goals for schoolchildren with asthma, 420
- Aetiology of asthma: *letter*, 188
- Asthma treatment and growth: *annotation*, 284
- Asthma—time for a change of name?: *controversy*, 62
- Cough sensitivity in children with asthma, recurrent cough, and cystic fibrosis, 331
- The use of cyclosporin in corticosteroid dependent asthma, 522
- atopy**, Aetiology of asthma: *letter*, 188
- audit**, Audit of neonatal screening programme for phenylketonuria and congenital hypothyroidism, F228
- authors**, Acknowledgment and authors: *letter*, 187
- awareness**, SIDS: parental awareness and infant care practices in contrasting socioeconomic areas in Cardiff, 52
- basal ganglia**, Basal ganglia damage and impaired visual function in the newborn infant, F111
- behaviour**, Educational progress, behaviour, and motor skills at 10 years in early treated congenital hypothyroidism, 219
- behavioural problems**, A psychiatric perspective of epilepsy: *personal practice*, 86
- bile**, Raised bile acid concentrations in SIDS lungs at necropsy, 120
- bioelectrical impedance**, Assessment of total body water using bioelectrical impedance analysis in neonates receiving intensive care, F123
- bioelectrical impedance analysis**, Influence of respiratory distress syndrome on body composition after preterm birth, F28
- biphosphonates**, Bisphosphonates in osteogenesis imperfecta: *letter*, 92
- birth order**, The epidemic of SIDS in Norway 1967–93: changing effects of risk factors, 23
- birth weight**, Birth weight and body fat distribution in adolescent girls, 381
- blood pressure monitoring**, Feasibility of using finger arterial pressure in neonates, F139
- blood sampling**, Neonatal pain response to heel stick *vs* venepuncture for routine blood sampling, F143
- body composition**, Assessment of total body water using bioelectrical impedance analysis in neonates receiving intensive care, F123
- Influence of respiratory distress syndrome on body composition after preterm birth, F28
- body fat distribution**, Birth weight and body fat distribution in adolescent girls, 381
- body mass index**, Child to adult body mass index in the 1958 British birth cohort: associations with parental obesity, 376
- Height and weight in cystic fibrosis: a cross sectional study, 497
- body odour**, Neonatal encephalopathy with a pungent body odour, F65
- bone marrow**, Bone marrow trephine biopsy in infants, 60
- bone marrow transplantation**, Enteral nutrition after bone marrow transplantation, 131
- boosters**, Long term hepatitis B vaccine in infants born to hepatitis B e antigen positive mothers, F47
- brain injury**, Minor head injury: *current topic*, 82
- bronchiolitis**, Local variability in respiratory syncytial virus disease severity, 410
- Respiratory syncytial virus genotypes and disease severity among children in hospital, 508
- bronchopulmonary dysplasia**, Randomised controlled trial of an aggressive nutritional regimen in sick very low birthweight infants, F4
- bronchoscopy**, Paediatric bronchoscopy: *personal practice*, 272
- Byler's syndrome**, Byler's syndrome: *letter*, 276
- caesarean deliveries**, Illness severity measured by CRIB score: a product of changes in perinatal care?, F211
- caesarean section**, Plasma prolactin concentrations after caesarean section or vaginal delivery, F237
- caffeine metabolism**, Enhanced drug metabolism in young children with cystic fibrosis, 239
- calcium absorption**, Randomised controlled trial of a synthetic triglyceride milk formula for preterm infants, F178
- cannabis**, Cannabis: *current topic*, 164
- capsaicin**, Cough sensitivity in children with asthma, recurrent cough, and cystic fibrosis, 331
- carbohydrate malabsorption**, Differentiation of osmotic and secretory diarrhoea by stool carbohydrate and osmolar gap measurements, 201
- cardiac index**, Clinicians' abilities to estimate cardiac index in ventilated children and infants, 516
- cardiac malformations**, Iodine and hypothyroidism in neonates with congenital heart disease, F239

- cardiac surgery**, Serum lactate as a predictor of mortality after paediatric cardiac surgery, 235
- cardiovascular fitness**, Assessment of cardiovascular fitness for competitive sport in high risk groups: *annotation*, 386
- Caroli's disease**, Neonatal presentation of Caroli's disease, F145
- carriage**, Antibody persistence and *Haemophilus influenzae* type b carriage after infant immunisation with PRP-T, 488
- case-control study**, Early infection and subsequent insulin dependent diabetes, 384
- SIDS, illness, and acute medical care, 54
- catheterisation**, Iodine and hypothyroidism in neonates with congenital heart disease, F239
- central motor pathway**, Central motor conduction time in malnourished children, 323
- central venous catheter**, Central venous catheter use in UKCCSG oncology centres, 58
- cerebellum**, Increased plasma malondialdehyde associated with cerebellar structural defects, 231
- cerebral lateralisation**, Are boys better than girls at building a tower or a bridge at 2 years of age?, 140
- cerebral lesions**, Neonatal seizures associated with cerebral lesions shown by magnetic resonance imaging, F105
- child health**, Child health statistical review, 1997: *review*, 542
- child to adult tracking**, Child to adult body mass index in the 1958 British birth cohort: associations with parental obesity, 376
- childhood hypertension**, Nitric oxide activity in childhood hypertension, 11
- chronic bullous disease**, Chronic bullous disease of childhood and a paecilomyces lung infection in chronic granulomatous disease, 150
- chronic disability**, The adolescent with rheumatic disease: *rheumatology*, 355
- chronic granulomatous disease**, Abnormal technetium labelled white cell scan in the colitis of chronic granulomatous disease, 50
- Chronic bullous disease of childhood and a paecilomyces lung infection in chronic granulomatous disease, 150
- chronic illness**, Children's quality of life measures: *research methodology*, 350
- chronic illnesses**, A psychiatric perspective of epilepsy: *personal practice*, 86
- chronic lung disease**, Chronic idiopathic bronchiolitis of infancy, 512
- Doppler assessment of pulmonary artery pressure in neonates at risk of chronic lung disease, F23
- Early increase of TNF $\alpha$  and IL-6 in tracheobronchial aspirate fluid indicator of subsequent chronic lung disease in preterm infants, F198
- Open randomised controlled trial of inhaled nitric oxide and early dexamethasone in high risk preterm infants, F185
- chronic lung disease of prematurity**, Pulmonary function changes after nebulised and intravenous frusemide in ventilated premature infants, F32
- circumcision**, Benefits of newborn circumcision: is Europe ignoring medical evidence?: *controversy*, 258
- Routine male neonatal circumcision and risk of infection with HIV-1 and other sexually transmitted diseases: *annotation*, 194
- cisapride**, Cisapride reduces neonatal postoperative ileus: randomised placebo controlled trial, F119
- Effects of cisapride on QTc interval in neonates, F241
- cleft palate**, Height and weight achievement in cleft lip and palate: *letter*, 187
- clinical information system**, The clinical workstation: *annotation*, 392
- clinical lecturer posts**, Clinical lecturer posts under threat: *letter*, 186
- clinical research**, UK paediatric clinical research under threat: *letter*, 186
- clinical workstation**, The clinical workstation: *annotation*, 392
- cobalamin deficiency**, Persistence of neurological damage induced by dietary vitamin B-12 deficiency in infancy, 137
- Cochrane Collaboration**, The Cochrane Collaboration: progress in perinatal medicine: *annotation*, F176
- coeliac disease**, Changing infant feeding practices and declining incidence of coeliac disease in West Somerset, 206
- Dental enamel defects and coeliac disease: *letter*, 91
- Serum prolactin in coeliac disease: a marker for disease activity, 155
- colitis**, Abnormal technetium labelled white cell scan in the colitis of chronic granulomatous disease, 50
- collagen type I and type III metabolism**, Juvenile hyaline fibromatosis: impaired collagen metabolism in human skin fibroblasts, 436
- colon cancer**, An unusually severe phenotype for familial adenomatous polyposis, 431
- coma scale**, Development of a modified paediatric coma scale in intensive care clinical practice, 519
- community**, Community study of toxoplasma antibodies in urban and rural schoolchildren aged 4 to 18 years, 406
- competitive sport**, Assessment of cardiovascular fitness for competitive sport in high risk groups: *annotation*, 386
- confidentiality**, Adolescent health services—through their eyes, 115
- congenital adrenal hyperplasia**, Randomised controlled trial of growth effect of hydrocortisone in congenital adrenal hyperplasia, 214
- congenital diaphragmatic hernia**, Inhaled nitric oxide in neonates: *annotation*, F81
- congenital heart disease**, Changing impact of fetal diagnosis of congenital heart disease: *annotation*, F1
- Inhaled nitric oxide in neonates: *annotation*, F81
- congenital hypothyroidism**, Audit of neonatal screening programme for phenylketonuria and congenital hypothyroidism, F228
- Educational progress, behaviour, and motor skills at 10 years in early treated congenital hypothyroidism, 219
- Factors involved in the rate of fall of thyroid stimulating hormone in treated hypothyroidism, 526
- congenital lactic acidosis**, Treatment of congenital lactic acidosis with dichloroacetate: *current topic*, 535
- congenital malformations**, Partial 10q trisomy with partial 12q monosomy, 528
- congenital total lipodystrophy**, Congenital total lipodystrophy and peripheral pulmonary artery stenosis: *letter*, 466
- conjugate vaccine**, Antibody persistence and *Haemophilus influenzae* type b carriage after infant immunisation with PRP-T, 488
- conscious level**, Development of a modified paediatric coma scale in intensive care clinical practice, 519
- consultant and nursing caseload**, Audit of diabetes care by caseload, 102
- contraceptive advice**, Preventing teenage pregnancy: *current topic*, 459
- conus medullaris**, Level of conus medullaris in term and preterm neonates, F67
- convulsions**, Retinal haemorrhages and convulsions: *letter*, 466
- corticosteroids**, Asthma treatment and growth: *annotation*, 284
- Effects of antenatal and postnatal corticosteroids on the preterm lung: *current topic*, F147
- Randomised controlled trial of inhaled corticosteroids (fluticasone propionate) in cystic fibrosis, 124
- costs**, Children in residential care; what cost?: *annotation*, 394
- cough**, Aetiology of asthma: *letter*, 188
- Cough sensitivity in children with asthma, recurrent cough, and cystic fibrosis, 331
- cows' milk allergy**, Extensively and partially hydrolysed infant formulas for allergy prophylaxis, 4
- cows' milk protein allergy**, Gastro-oesophageal reflux and cows' milk protein allergy: *letter*, 183
- coxiella**, Q fever tricuspid valve endocarditis, 448
- cranial dermal sinuses**, Extracranial dermoid tumours of the posterior fossa, 427
- C-reactive protein**, Diagnosis of late onset neonatal sepsis with cytokines, adhesion molecule, and C-reactive protein in preterm very low birthweight infants, F221
- CRIB**, Illness severity measured by CRIB score: a product of changes in perinatal care?, F211
- Crohn's disease**, Abnormal technetium labelled white cell scan in the colitis of chronic granulomatous disease, 50
- Gastrostomy in children with Crohn's disease: *letter*, 369
- cyclosporin**, The use of cyclosporin in corticosteroid dependent asthma, 522
- cystic fibrosis**, Confidential inquiry into families with two siblings with cystic fibrosis, 501
- Cough sensitivity in children with asthma, recurrent cough, and cystic fibrosis, 331
- Diagnosing cystic fibrosis: *letter*, 464
- Enhanced drug metabolism in young children with cystic fibrosis, 239
- Height and weight in cystic fibrosis: a cross sectional study, 497
- Incidence, population, and survival of cystic fibrosis in the UK, 1968–95, 493
- Intestinal neuronal dysplasia associated with cystic fibrosis: *letter*, 277
- Is fibrosing colonopathy an immune mediated disease?: *hypothesis*, 66
- Randomised controlled trial of inhaled corticosteroids (fluticasone propionate) in cystic fibrosis, 124
- Recombinant human DNase (rhDNase) in cystic fibrosis: is it cost effective?: *annotation*, 1
- Sweat sodium is not sweat chloride: *letter*, 463
- cytokine genes**, Pathogenesis of juvenile chronic arthritis: genetic and environmental factors: *rheumatology*, 530
- cytokines**, Cytokines in haemolytic uraemic syndrome associated with verocytotoxin-producing *Escherichia coli* infection, 145
- Early increase of TNF $\alpha$  and IL-6 in tracheobronchial aspirate fluid indicator of subsequent chronic lung disease in preterm infants, F198
- dapsone**, Pemphigus foliaceus, 255
- databases**, Can paediatricians benefit from the Internet?: *personal practice*, 179
- The Cochrane Collaboration: progress in perinatal medicine: *annotation*, F176
- day assessment unit**, Planning for the future: the experience of implementing a children's day assessment unit in a district general hospital, 287
- declining incidence**, Changing infant feeding practices and declining incidence of coeliac disease in West Somerset, 206
- decriminalisation**, Cannabis: *current topic*, 164

- dental enamel**, Dental enamel defects and coeliac disease: *letter*, 91
- depth of insertion**, Depth of insertion of a lumbar puncture needle, 450
- dermoid cyst aetiology**, Extradural dermoid tumours of the posterior fossa, 427
- dermoid tumours**, Extradural dermoid tumours of the posterior fossa, 427
- development**, Family conflict and slow growth, 326
- dexamethasone**, Open randomised controlled trial of inhaled nitric oxide and early dexamethasone in high risk preterm infants, F185
- diabetes care provision**, Audit of diabetes care by caseload, 102
- diabetes education**, Auditing paediatric diabetes care and the impact of a specialist nurse trained in paediatric diabetes, 109
- diabetes mellitus**, Increased incidence and prevalence of diabetes mellitus in Down's syndrome: *letter*, 186
- diabetic nephropathy**, Early onset of diabetic nephropathy, 524
- diagnostic screening**, Investigating children with mild to moderate learning difficulties: *letter*, 185
- diarrhoea**, Differentiation of osmotic and secretory diarrhoea by stool carbohydrate and osmolar gap measurements, 201
- dichloroacetate**, Treatment of congenital lactic acidosis with dichloroacetate: *current topic*, 535
- dichorionic pregnancy**, Dichorionic twins discordant for intrauterine growth retardation, F235
- dietary intervention**, Neutral lipid storage disease—response to dietary intervention: *letter*, 184
- diffusion weighted imaging**, Diffusion weighted magnetic resonance imaging of compromised tissue in stroke, 38
- digital imaging**, Advances in radiology, 265
- disability**, Extremely premature ( $\leq 800$  g) schoolchildren: multiple areas of hidden disability, F85  
Improved outcome into the 1990s for infants weighing 500–999 g at birth, F91  
Influence of obstetric management on outcome of extremely preterm growth retarded infants, F95
- distal 10q trisomy syndrome**, Partial 10q trisomy with partial 12q monosomy, 528
- diurnal variation**, Diurnal variation in stature: is stretching the answer?, 319
- Doppler echocardiography**, Doppler assessment of pulmonary artery pressure in neonates at risk of chronic lung disease, F23  
Ultrasonographic study of ductus venosus in healthy neonates, F131
- Doppler flow pattern**, Echocardiographic assessment of patent ductus arteriosus shunt flow pattern in premature infants, F36
- Down's syndrome**, High incidence of Down's syndrome in infants of diabetic mothers, 242  
Increased incidence and prevalence of diabetes mellitus in Down's syndrome: *letter*, 186
- drug trials**, Legislation and drug trials: *letter*, 277
- ductus arteriosus**, Effect of antenatal administration of thyrotrophin releasing hormone on fetal flow velocity waveforms, F127  
Ultrasonographic study of ductus venosus in healthy neonates, F131
- ductus venosus**, Ultrasonographic study of ductus venosus in healthy neonates, F131
- echocardiography**, Echocardiographic assessment of patent ductus arteriosus shunt flow pattern in premature infants, F36  
Outcome of fetuses with heart disease diagnosed in utero, F41
- educational progress**, Educational progress, behaviour, and motor skills at 10 years in early treated congenital hypothyroidism, 219
- effectiveness**, Health education: evidence of effectiveness: *annotation*, 189
- e-mail**, Can paediatricians benefit from the Internet?: *personal practice*, 179
- embryogenesis**, Fetal growth restriction and hepatocyte growth factor: *current topic*, F244
- emotional disturbance**, The adolescent with rheumatic disease: *rheumatology*, 355
- encephalopathy**, Neonatal encephalopathy with a pungent body odour, F65
- endoscopic retrograde cholangiopancreatography**, Neonatal presentation of Caroli's disease, F145
- endothelium**, Endothelial nitric oxide synthase in hypoxic newborn porcine pulmonary vessels, F16
- enteral nutrition**, Enteral nutrition after bone marrow transplantation, 131
- environmental triggers**, Rising incidence of type 1 diabetes in Scottish children, 1984–93, 210
- eosinophilia**, Kimura's disease: an unusual cause of cervical tumour, 153
- epidemic**, An epidemic of acute postinfectious glomerulonephritis in Armenia, 342
- epidemiology**, Hepatitis GB virus-C/hepatitis G virus infection in liver disease, 223  
Incidence, population, and survival of cystic fibrosis in the UK, 1968–95, 493
- E-selectin**, Diagnosis of late onset neonatal sepsis with cytokines, adhesion molecule, and C-reactive protein in preterm very low birthweight infants, F221
- Evans' syndrome**, The spectrum of Evans' syndrome, 245
- extremely low birthweight**, Extremely premature ( $\leq 800$  g) schoolchildren: multiple areas of hidden disability, F85  
Improved outcome into the 1990s for infants weighing 500–999 g at birth, F91
- faecal osmolar gap**, Differentiation of osmotic and secretory diarrhoea by stool carbohydrate and osmolar gap measurements, 201
- failure to attend**, Comparison of Asian and English non-attenders at a hospital outpatient department, 423
- failure to thrive**, Hyperammonaemia with distal renal tubular acidosis, 441
- familial adenomatous polyposis**, An unusually severe phenotype for familial adenomatous polyposis, 431
- family clinic**, A family clinic—optimising care for HIV infected children and their families, 478
- family conflict**, Family conflict and slow growth, 326
- febrile convulsions**, Diagnosis of primary human herpesvirus 6 and 7 infections in febrile infants by polymerase chain reaction, 42
- fetal Doppler**, Effect of antenatal administration of thyrotrophin releasing hormone on fetal flow velocity waveforms, F127
- fetal growth and adult disease**, Is lifespan determined in utero?: *editorial*, F162
- fetal growth restriction**, Fetal growth restriction and hepatocyte growth factor: *current topic*, F244
- fetal middle cerebral artery**, Effect of antenatal administration of thyrotrophin releasing hormone on fetal flow velocity waveforms, F127
- fibrosing colonopathy**, Is fibrosing colonopathy an immune mediated disease?: *hypothesis*, 66
- Finapres**, Feasibility of using finger arterial pressure in neonates, F139
- flexible bronchoscope**, Paediatric bronchoscopy: *personal practice*, 272
- foramen ovale**, Ultrasonographic study of ductus venosus in healthy neonates, F131
- fracture**, Chromosomal and clinical features in an infant with Hallermann-Streiff syndrome: *letter*, 184
- fundamental voice frequency**, Changes in the male voice at puberty, 445
- gammaglobulin treatment**, Hypogammaglobulinaemia in a patient with ring chromosome 21, 252
- gas chromatography-mass spectrometry**, Developmental pattern of 3-oxo- $\Delta$  bile acids in neonatal bile acid metabolism, F52
- gastro-oesophageal reflux**, Gastro-oesophageal reflux and cows' milk protein allergy: *letter*, 183
- gastroschisis**, Cisapride reduces neonatal postoperative ileus: randomised placebo controlled trial, F119  
The survivors of gastroschisis, 158
- gastrostomy**, Gastrostomy in children with Crohn's disease: *letter*, 369
- gene mutations**, Mutation analysis in 46 British and Irish patients with Gaucher's disease, 17
- general paediatrics**, Death of the general paediatrician?: *controversy*, 364
- genetic counselling**, Confidential inquiry into families with two siblings with cystic fibrosis, 501
- genetic susceptibility**, Rising incidence of type 1 diabetes in Scottish children, 1984–93, 210
- genital abnormalities**, Partial 10q trisomy with partial 12q monosomy, 528
- genotypes**, Respiratory syncytial virus genotypes and disease severity among children in hospital, 508
- gestational assessment**, Gestational assessment assessed, F216
- giant cell hepatitis**, Liver transplant for giant cell hepatitis with autoimmune haemolytic anaemia, 249
- gifted children**, Are boys better than girls at building a tower or a bridge at 2 years of age?, 140
- glucocerebrosidase gene**, Mutation analysis in 46 British and Irish patients with Gaucher's disease, 17
- glycaemic control**, Auditing paediatric diabetes care and the impact of a specialist nurse trained in paediatric diabetes, 109
- growth**, Asthma treatment and growth: *annotation*, 284  
Family conflict and slow growth, 326  
Growth in infancy, infant feeding, childhood living conditions, and *Helicobacter pylori* infection at age 70, 310  
Growth of Pakistani children in relation to the 1990 growth standards, 401  
Height and weight achievement in cleft lip and palate: *letter*, 187  
*Helicobacter pylori* infection and growth delay in older children, 46  
Randomised controlled trial of growth effect of hydrocortisone in congenital adrenal hyperplasia, 214
- growth hormone**, Reduced levels of growth hormone, insulin-like growth factor-I and binding protein-3 in patients with shunted hydrocephalus, 32
- growth hormone-binding protein**, Developmental pattern of fetal growth hormone, insulin-like growth factor I, growth hormone binding protein and insulin-like growth factor binding protein-3, F100
- growth retardation**, Influence of obstetric management on outcome of extremely preterm growth retarded infants, F95

- growth standards**, Growth of Pakistani children in relation to the 1990 growth standards, 401
- Guillain-Barré syndrome**, Iridoplegia in severe Guillain-Barré syndrome: *letter*, 91
- gut bacteria**, Neonatal encephalopathy with a pungent body odour, F65
- haematocrit**, Randomised controlled trial: comparison of colloid or crystalloid for partial exchange transfusion for treatment of neonatal polycythaemia, F115
- haemolytic uraemic syndrome**, Cytokines in haemolytic uraemic syndrome associated with verocytotoxin-producing *Escherichia coli* infection, 145
- Haemophilus influenzae* type b**, Antibody persistence and *Haemophilus influenzae* type b carriage after infant immunisation with PRP-T, 488
- Hallermann-Streiff syndrome**, Chromosomal and clinical features in an infant with Hallermann-Streiff syndrome: *letter*, 184
- handicap**, Dichorionic twins discordant for intrauterine growth retardation, F235
- Influence of obstetric management on outcome of extremely preterm growth retarded infants, F95
- head injury**, Minor head injury: *current topic*, 82
- head lice**, Head lice in schoolchildren: *letter*, 277
- health education programmes**, Health education: evidence of effectiveness: *annotation*, 189
- health services**, Adolescent health services—through their eyes, 115
- heel stick**, Neonatal pain response to heel stick *vs* venepuncture for routine blood sampling, F143
- height**, Height and weight in cystic fibrosis: a cross sectional study, 497
- Helicobacter pylori* infection and growth delay in older children, 46
- height measurement**, Diurnal variation in stature: is stretching the answer?, 319
- helical computed tomography**, Advances in radiology, 265
- Helicobacter pylori*, *Helicobacter pylori* infection and growth delay in older children, 46
- Growth in infancy, infant feeding, childhood living conditions, and *Helicobacter pylori* infection at age 70, 310
- Henoch-Schönlein purpura**, Plasma E-selectin and ICAM-1 in acute Henoch-Schönlein purpura: *letter*, 94
- Primary manifestation of Henoch-Schönlein purpura during immunosuppressive treatment: *letter*, 184
- hepatitis B vaccine**, Hepatitis B vaccination in preterm infants, F135
- Long term hepatitis B vaccine in infants born to hepatitis B e antigen positive mothers, F47
- hepatitis G virus**, Hepatitis GB virus-C/hepatitis G virus infection in liver disease, 223
- hepatocyte growth factor**, Fetal growth restriction and hepatocyte growth factor: *current topic*, F244
- HHV-6**, Diagnosis of primary human herpesvirus 6 and 7 infections in febrile infants by polymerase chain reaction, 42
- HHV-7**, Diagnosis of primary human herpesvirus 6 and 7 infections in febrile infants by polymerase chain reaction, 42
- HIV**, A family clinic—optimising care for HIV infected children and their families, 478
- Impact of HIV on mortality from acute lower respiratory tract infection in rural Zambia, 227
- HIV infection**, Benefits of newborn circumcision: is Europe ignoring medical evidence?: *controversy*, 258
- Routine male neonatal circumcision and risk of infection with HIV-1 and other sexually transmitted diseases: *annotation*, 194
- The needs of children whose mothers have HIV infection, 483
- HLA**, Pathogenesis of juvenile chronic arthritis: genetic and environmental factors: *rheumatology*, 530
- hospital admission**, Auditing paediatric diabetes care and the impact of a specialist nurse trained in paediatric diabetes, 109
- hospitalisation**, Validation of the paediatric appropriateness evaluation protocol in British practice, 294
- housing**, Growth in infancy, infant feeding, childhood living conditions, and *Helicobacter pylori* infection at age 70, 310
- human milk**, Sialic acid content of infant saliva: comparison of breast fed with formula fed infants, 315
- hydrocephalus**, Reduced levels of growth hormone, insulin-like growth factor-I and binding protein-3 in patients with shunted hydrocephalus, 32
- hydrocortisone**, Randomised controlled trial of growth effect of hydrocortisone in congenital adrenal hyperplasia, 214
- hygiene**, Avicenna (AD 980-1037) and Arabic perinatal medicine: *perinatal lesson*, F75
- hyperammonaemia**, Hyperammonaemia with distal renal tubular acidosis, 441
- hyperchloraemia**, Randomised controlled trial of acetate in preterm neonates receiving parenteral nutrition, F12
- hyperimmunoglobulinaemia**, Kimura's disease: an unusual cause of cervical tumour, 153
- hypermobility**, Non-inflammatory musculoskeletal disorders in childhood: *rheumatology*, 71
- hypertension**, Early onset of diabetic nephropathy, 524
- hypogammaglobulinaemia**, Hypogammaglobulinaemia in a patient with ring chromosome 21, 252
- hypothyroidism**, Initial evaluation of congenital hypothyroidism: a survey of general paediatricians in East Anglia, 339
- Iodine and hypothyroidism in neonates with congenital heart disease, F239
- Thyroid morphological findings in the mothers of infants with congenital hypothyroidism: *letter*, 185
- hypoxia**, Endothelial nitric oxide synthase in hypoxic newborn porcine pulmonary vessels, F16
- IGF-binding protein**, Developmental pattern of fetal growth hormone, insulin-like growth factor I, growth hormone binding protein and insulin-like growth factor binding protein-3, F100
- illegal drugs**, Cannabis: *current topic*, 164
- illness**, SIDS, illness, and acute medical care, 54
- illness severity score**, Illness severity measured by CRIB score: a product of changes in perinatal care?, F211
- immune dysregulation**, The spectrum of Evans' syndrome, 245
- immunity**, Antibody persistence and *Haemophilus influenzae* type b carriage after infant immunisation with PRP-T, 488
- imported malaria**, Imported malaria in children in the UK: *current topic*, 76
- inborn errors of metabolism**, New developments in neonatal screening: *current topic*, F151
- infancy**, Early infection and subsequent insulin dependent diabetes, 384
- infant colic**, Use of sucrose as a treatment for infantile colic: *letter*, 370
- Use of sucrose as a treatment for infantile colic: *letter*, 370
- infant development**, Effects of postnatal depression on infant development: *annotation*, 99
- infant feeding**, Changing infant feeding practices and declining incidence of coeliac disease in West Somerset, 206
- Growth in infancy, infant feeding, childhood living conditions, and *Helicobacter pylori* infection at age 70, 310
- infant formula**, Sialic acid content of infant saliva: comparison of breast fed with formula fed infants, 315
- infant habituation**, Can measures of infant habituation predict later intellectual ability?: *annotation*, 474
- infants of diabetic mothers**, High incidence of Down's syndrome in infants of diabetic mothers, 242
- infection**, Early infection and subsequent insulin dependent diabetes, 384
- infective endocarditis**, Fashion victim: infective endocarditis after nasal piercing: *letter*, 187
- inflammation**, Randomised controlled trial of inhaled corticosteroids (fluticasone propionate) in cystic fibrosis, 124
- information systems**, Are outcome data regarding the survivors of neonatal care available from routine sources?, F206
- information technology**, The clinical workstation: *annotation*, 392
- inguinal hernia**, Androgen insensitivity syndrome: a survey of diagnostic procedures and management in the UK, 305
- inhaled frusemide**, Pulmonary function changes after nebulised and intravenous frusemide in ventilated premature infants, F32
- inhaled nitric oxide**, Changes in oxygenation and pulmonary haemodynamics in preterm infants treated with inhaled nitric oxide, F191
- Inhaled nitric oxide in neonates: *annotation*, F81
- injection sclerotherapy**, Treatment of oesophageal varices: *annotation*, 476
- injury prevention**, Accidental injury: risk and preventative interventions, 28
- injury**, Seat restraint use, previous driving history, and non-fatal injury: quantifying the risks, 335
- insulin dependent diabetes mellitus**, Late development of IgA antiendomysial antibodies and small intestinal mucosal atrophy after insulin dependent diabetes mellitus onset: *letter*, 465
- Rising incidence of type 1 diabetes in Scottish children, 1984-93, 210
- insulin dependent (type 1) diabetes**, Early infection and subsequent insulin dependent diabetes, 384
- insulin-like growth factor binding protein-3**, Reduced levels of growth hormone, insulin-like growth factor-I and binding protein-3 in patients with shunted hydrocephalus, 32
- insulin-like growth factor I**, Developmental pattern of fetal growth hormone, insulin-like growth factor I, growth hormone binding protein and insulin-like growth factor binding protein-3, F100
- insulin-like growth factor-I**, Reduced levels of growth hormone, insulin-like growth factor-I and binding protein-3 in patients with shunted hydrocephalus, 32
- intellectual ability**, Can measures of infant habituation predict later intellectual ability?: *annotation*, 474
- intensive care**, Assessment of total body water using bioelectrical impedance analysis in neonates receiving intensive care, F123
- Development of a modified paediatric coma scale in intensive care clinical practice, 519
- intensive care**, Are outcome data regarding the survivors of neonatal care available from routine sources?, F206
- interleukin 1 $\beta$** , Diagnosis of late onset neonatal sepsis with cytokines, adhesion molecule, and C-reactive protein in preterm very low birthweight infants, F221

- interleukin-6**, Diagnosis of late onset neonatal sepsis with cytokines, adhesion molecule, and C-reactive protein in preterm very low birthweight infants, **F221**
- Internet**, Can paediatricians benefit from the Internet?: *personal practice*, 179
- intersex**, Androgen insensitivity syndrome: a survey of diagnostic procedures and management in the UK, 305
- interventional radiology**, Advances in radiology, 265
- intestinal neuronal dysplasia**, Intestinal neuronal dysplasia associated with cystic fibrosis: *letter*, 277
- intrauterine growth**, Fetal growth restriction and hepatocyte growth factor: *current topic*, **F244**
- intrauterine growth retardation**, Dichorionic twins discordant for intrauterine growth retardation, **F235**
- intubation**, Use of methohexital for elective intubation in neonates, **F61**
- invasive procedures**, Sedation for invasive procedures in paediatrics: *annotation*, 281
- investigation**, Initial evaluation of congenital hypothyroidism: a survey of general paediatricians in East Anglia, 339
- iodine**, Iodine and hypothyroidism in neonates with congenital heart disease, **F239**
- iridoplegia**, Iridoplegia in severe Guillain-Barré syndrome: *letter*, 91
- ischaemia**, Diffusion weighted magnetic resonance imaging of compromised tissue in stroke, 38
- isotonic saline**, Randomised controlled trial: comparison of colloid or crystalloid for partial exchange transfusion for treatment of neonatal polycythaemia, **F115**

- periconceptual multivitamin supplementation**, Long term follow up of children born to mothers with periconceptual multivitamin supplementation: *letter*, **183**
- perinatal asphyxia**, Indices of renal tubular function in perinatal asphyxia, **F57**
- perinatal medicine**, The Cochrane Collaboration: progress in perinatal medicine: *annotation*, **F176**
- pets**, Salmonella infection acquired from reptilian pets, **345**
- phenylketonuria**, Audit of neonatal screening programme for phenylketonuria and congenital hypothyroidism, **F228**
- philosophy**, Avicenna (AD 980-1037) and Arabic perinatal medicine: *perinatal lesson*, **F75**
- piglets**, Endothelial nitric oxide synthase in hypoxic newborn porcine pulmonary vessels, **F16**
- placenta**, Aging of the placenta: *editorial*, **F171**
- plasma nitrate**, Nitric oxide activity in childhood hypertension, **11**
- policy**, Achieving treatment goals for schoolchildren with asthma, **420**
- polycystic ovary syndrome**, Polycystic ovary syndrome: *personal view*, **89**
- polymerase chain reaction**, Diagnosis of primary human herpesvirus 6 and 7 infections in febrile infants by polymerase chain reaction, **42**
- Impact of HIV on mortality from acute lower respiratory tract infection in rural Zambia, **227**
- polymerase chain reaction**, Eubacterial approach to the diagnosis of bacterial infection, **148**
- polyposis**, An unusually severe phenotype for familial adenomatous polyposis, **431**
- portal hypertension**, Treatment of oesophageal varices: *annotation*, **476**
- postnatal depression**, Effects of postnatal depression on infant development: *annotation*, **99**
- Prediction, detection, and treatment of postnatal depression: *annotation*, **97**
- postoperative ileus**, Cisapride reduces neonatal postoperative ileus: randomised placebo controlled trial, **F119**
- pregnancy prevention**, Preventing teenage pregnancy: *current topic*, **459**
- prematurity**, Hepatitis B vaccination in preterm infants, **F135**
- prenatal diagnosis**, Changing impact of fetal diagnosis of congenital heart disease: *annotation*, **F1**
- Confidential inquiry into families with two siblings with cystic fibrosis, **501**
- preschool surveillance**, Predictive value of preschool surveillance in detecting learning difficulties: *letter*, **92**
- preterm**, Effects of antenatal and postnatal corticosteroids on the preterm lung: *current topic*, **F147**
- prevalence**, Rising incidence of type 1 diabetes in Scottish children, 1984-93, **210**
- programming mechanisms**, Is lifespan determined in utero?: *editorial*, **F162**
- prokinesis**, Cisapride reduces neonatal postoperative ileus: randomised placebo controlled trial, **F119**
- prolactin**, Plasma prolactin concentrations after caesarean section or vaginal delivery, **F237**
- Serum prolactin in coeliac disease: a marker for disease activity, **155**
- prolonged expiratory apnoea**, Raised bile acid concentrations in SIDS lungs at necropsy, **120**
- prophylaxis**, Systematic review of prophylactic vs rescue surfactant: *current topic*, **F70**
- protein hydrolysates**, Extensively and partially hydrolysed infant formulas for allergy prophylaxis, **4**
- proxy ratings**, Children's quality of life measures: *research methodology*, **350**
- psychiatric evaluation**, Non-inflammatory musculoskeletal disorders in childhood: *rheumatology*, **71**
- psychoactive drugs**, Cannabis: *current topic*, **164**
- psychology**, Extremely premature ( $\leq 800$  g) schoolchildren: multiple areas of hidden disability, **F85**
- psychomotor development**, Persistence of neurological damage induced by dietary vitamin B-12 deficiency in infancy, **137**
- psychopathology**, A psychiatric perspective of epilepsy: *personal practice*, **86**
- pubertal development**, Serum leptin concentrations in relation to pubertal development, **396**
- puberty**, Changes in the male voice at puberty, **445**
- pulmonary artery pressure**, Changes in oxygenation and pulmonary haemodynamics in preterm infants treated with inhaled nitric oxide, **F191**
- Doppler assessment of pulmonary artery pressure in neonates at risk of chronic lung disease, **F23**
- pulmonary artery stenosis**, Congenital total lipodystrophy and peripheral pulmonary artery stenosis: *letter*, **466**
- Neonatal presentation of Caroli's disease, **F145**
- pulmonary circulation**, Endothelial nitric oxide synthase in hypoxic newborn porcine pulmonary vessels, **F16**

- pulmonary mechanics**, Pulmonary function changes after nebulised and intravenous frusemide in ventilated premature infants, **F32**
- pyloric tumours**, Situs inversus and left sided pyloric tumours: *letter*, 277
- Q fever**, Q fever tricuspid valve endocarditis, 448
- QT interval**, Effects of cisapride on QTc interval in neonates, **F241**
- QTc interval**, Effects of cisapride on QTc interval in neonates, **F241**
- quality of life**, Children's quality of life measures: *research methodology*, 350
- Measuring quality of life: *research methodology*, 347
- radiology**, The range of visceral manifestations of non-accidental injury: *personal practice*, 167
- radiotherapy**, Targeted radiotherapy for neuroblastoma: *annotation*, 389
- randomised controlled trial**, Open randomised controlled trial of inhaled nitric oxide and early dexamethasone in high risk preterm infants, **F185**
- Randomised controlled trial of inhaled corticosteroids (fluticasone propionate) in cystic fibrosis, 124
- Randomised controlled trials: *letter*, 93
- recombinant human DNase**, Recombinant human DNase (rhDNase) in cystic fibrosis: is it cost effective?: *annotation*, 1
- records**, Gestational assessment assessed, **F216**
- rectovaginal fistulae**, Acquired rectovaginal fistulae in South Africa: *letter*, 94
- renal function**, Nitric oxide activity in childhood hypertension, 11
- renal tubular acidosis**, Hyperammonaemia with distal renal tubular acidosis, 441
- renal tubular function**, Indices of renal tubular function in perinatal asphyxia, **F57**
- reproductive anatomy**, Leonardo Da Vinci (1452–1519) and reproductive anatomy: *perinatal lesson*, **F249**
- reptiles**, Salmonella infection acquired from reptilian pets, 345
- Salmonella meningitis acquired from pet snakes: *letter*, 93
- residential care**, Children in residential care: what cost?: *annotation*, 394
- respiratory distress syndrome**, Influence of respiratory distress syndrome on body composition after preterm birth, **F28**
- Randomised trial of volume controlled *versus* time cycled, pressure limited ventilation in preterm infants with respiratory distress syndrome, **F202**
- Systematic review of prophylactic *vs* rescue surfactant: *current topic*, **F70**
- respiratory mechanics**, The role of negative pressure ventilation: *current topic*, 454
- respiratory problems**, Paediatric bronchoscopy: *personal practice*, 272
- respiratory syncytial virus**, Local variability in respiratory syncytial virus disease severity, 410
- Respiratory syncytial virus genotypes and disease severity among children in hospital, 508
- retinal haemorrhages**, Retinal haemorrhages and convulsions: *letter*, 466
- Rett's syndrome**, Immaturity of medullary cardiorespiratory neurones leading to inappropriate autonomic reactions as a likely cause of sudden death in Rett's syndrome: *letter*, 464
- rheumatic disease**, The adolescent with rheumatic disease: *rheumatology*, 355
- Usefulness of antinuclear antibody testing to screen for rheumatic diseases, 299
- rigid bronchoscope**, Paediatric bronchoscopy: *personal practice*, 272
- ring chromosome 21**, Hypogammaglobulinaemia in a patient with ring chromosome 21, 252
- risk factors**, Accidental injury: risk and preventative interventions, 28
- risk:benefit ratio**, Is venepuncture in neonatal research ethical?, **F141**
- road traffic accident**, Seat restraint use, previous driving history, and non-fatal injury: quantifying the risks, 335
- room sharing**, Why is sudden infant death syndrome more common at weekends?, 415
- routes of infection**, Hepatitis GB virus-C/hepatitis G virus infection in liver disease, 223
- Royal College of Paediatrics and Child Health**, Death of the general paediatrician?: *controversy*, 364
- saliva**, Sialic acid content of infant saliva: comparison of breast fed with formula fed infants, 315
- salmonella infection**, Salmonella infection acquired from reptilian pets, 345
- salmonellosis**, Salmonella meningitis acquired from pet snakes: *letter*, 93
- schools**, Achieving treatment goals for schoolchildren with asthma, 420
- screening**, Audit of neonatal screening programme for phenylketonuria and congenital hypothyroidism, **F228**
- Initial evaluation of congenital hypothyroidism: a survey of general paediatricians in East Anglia, 339
- seat restraint**, Seat restraint use, previous driving history, and non-fatal injury: quantifying the risks, 335
- sedation**, Sedation for invasive procedures in paediatrics: *annotation*, 281
- seizures**, Neonatal seizures associated with cerebral lesions shown by magnetic resonance imaging, **F105**
- sepsis**, Nitric oxide and severe sepsis: *letter*, 463
- seroprevalence**, Community study of toxoplasma antibodies in urban and rural schoolchildren aged 4 to 18 years, 406
- serum immunoglobulins**, The spectrum of Evans' syndrome, 245
- services**, A family clinic—optimising care for HIV infected children and their families, 478
- sexually transmitted diseases**, Routine male neonatal circumcision and risk of infection with HIV-1 and other sexually transmitted diseases: *annotation*, 194
- shaking injury**, Outcome after severe non-accidental head injury, 504
- sialadenitis**, Recurrent parotitis: *review*, 359
- sialectasis**, Recurrent parotitis: *review*, 359
- sialic acid**, Sialic acid content of infant saliva: comparison of breast fed with formula fed infants, 315
- SIDS**, Raised bile acid concentrations in SIDS lungs at necropsy, 120
- SIDS, illness, and acute medical care, 54
- SIDS: parental awareness and infant care practices in contrasting socioeconomic areas in Cardiff, 52
- The epidemic of SIDS in Norway 1967–93: changing effects of risk factors, 23
- Why is sudden infant death syndrome more common at weekends?, 415
- situs inversus**, Situs inversus and left sided pyloric tumours: *letter*, 277
- skin**, Juvenile hyaline fibromatosis: impaired collagen metabolism in human skin fibroblasts, 436
- skull fracture**, Minor head injury: *current topic*, 82
- small intestinal mucosal atrophy**, Late development of IgA antiendomysial antibodies and small intestinal mucosal atrophy after insulin dependent diabetes mellitus onset: *letter*, 465
- snakes**, Salmonella meningitis acquired from pet snakes: *letter*, 93
- socioeconomic factors**, SIDS: parental awareness and infant care practices in contrasting socioeconomic areas in Cardiff, 52
- sodium acetate**, Randomised controlled trial of acetate in preterm neonates receiving parenteral nutrition, **F12**
- somatotropin**, Developmental pattern of fetal growth hormone, insulin-like growth factor I, growth hormone binding protein and insulin-like growth factor binding protein-3, **F100**
- spatial cognition**, Are boys better than girls at building a tower or a bridge at 2 years of age?, 140
- special needs**, The needs of children whose mothers have HIV infection, 483
- spinal cord**, Level of conus medullaris in term and preterm neonates, **F67**
- sports injuries**, Sports injuries in children: should we be concerned?: *rheumatology*, 161
- statistical review**, Child health statistical review, 1997: *review*, 542
- Streptococcus pneumoniae**, Eubacterial approach to the diagnosis of bacterial infection, 148
- stress**, Family conflict and slow growth, 326
- stroke**, Diffusion weighted magnetic resonance imaging of compromised tissue in stroke, 38
- structural heart defects**, Outcome of fetuses with heart disease diagnosed in utero, **F41**
- sucrose**, Use of sucrose as a treatment for infantile colic: *letter*, 370
- Use of sucrose as a treatment for infantile colic: *letter*, 370
- sugar**, Use of sucrose as a treatment for infantile colic: *letter*, 370
- Use of sucrose as a treatment for infantile colic: *letter*, 370
- surfactant**, Effects of antenatal and postnatal corticosteroids on the preterm lung: *current topic*, **F147**
- Raised bile acid concentrations in SIDS lungs at necropsy, 120
- Systematic review of prophylactic *vs* rescue surfactant: *current topic*, **F70**
- surveillance programmes**, Are outcome data regarding the survivors of neonatal care available from routine sources?, **F206**
- survival**, Improved outcome into the 1990s for infants weighing 500–999 g at birth, **F91**
- sweat test**, Sweat sodium is not sweat chloride: *letter*, 463
- synthetic triglyceride**, Randomised controlled trial of a synthetic triglyceride milk formula for preterm infants, **F178**
- systemic lupus erythematosus**, Usefulness of antinuclear antibody testing to screen for rheumatic diseases, 299
- T cell receptors**, Pathogenesis of juvenile chronic arthritis: genetic and environmental factors: *rheumatology*, 530
- tandem mass spectrometry**, New developments in neonatal screening: *current topic*, **F151**
- teenage pregnancy**, Preventing teenage pregnancy: *current topic*, 459
- test characteristics**, Usefulness of antinuclear antibody testing to screen for rheumatic diseases, 299
- testosterone**, Changes in the male voice at puberty, 445
- tethered cord**, Level of conus medullaris in term and preterm neonates, **F67**
- thermodilution**, Clinicians' abilities to estimate cardiac index in ventilated children and infants., 516
- thyroid malformations**, Thyroid morphological findings in the mothers of infants with congenital hypothyroidism: *letter*, 185
- thyroid stimulating hormone**, Factors involved in the rate of fall of thyroid stimulating hormone in treated hypothyroidism, 526

- thyrotrophin releasing hormone**, Effect of antenatal administration of thyrotrophin releasing hormone on fetal flow velocity waveforms, **F127**
- thyroxine**, Factors involved in the rate of fall of thyroid stimulating hormone in treated hypothyroidism, **526**
- tongue tie**, Paulus Aegineta (625–690 AD) and Byzantine medicine: *perinatal lesson*, **F155**
- total body water**, Assessment of total body water using bioelectrical impedance analysis in neonates receiving intensive care, **F123**
- Influence of respiratory distress syndrome on body composition after preterm birth, **F28**
- toxicity**, Inhaled nitric oxide in neonates: *annotation*, **F81**
- toxoplasma**, Community study of toxoplasma antibodies in urban and rural schoolchildren aged 4 to 18 years, **406**
- tracheobronchial aspirate fluid**, Early increase of TNF $\alpha$  and IL-6 in tracheobronchial aspirate fluid indicator of subsequent chronic lung disease in preterm infants, **F198**
- transcranial magnetic stimulation**, Central motor conduction time in malnourished children, **323**
- transmission**, Long term hepatitis B vaccine in infants born to hepatitis B e antigen positive mothers, **F47**
- treatment goals**, Achieving treatment goals for schoolchildren with asthma, **420**
- trephine biopsy**, Bone marrow trephine biopsy in infants, **60**
- tricuspid valve endocarditis**, Q fever tricuspid valve endocarditis, **448**
- trisomy 21**, High incidence of Down's syndrome in infants of diabetic mothers, **242**
- tumour necrosis factor  $\alpha$** , Diagnosis of late onset neonatal sepsis with cytokines, adhesion molecule, and C-reactive protein in preterm very low birthweight infants, **F221**
- twins**, Dichorionic twins discordant for intrauterine growth retardation, **F235**
- ultrasonography**, Level of conus medullaris in term and preterm neonates, **F67**
- Neonatal seizures associated with cerebral lesions shown by magnetic resonance imaging, **F105**
- umbilical artery**, Feasibility of using finger arterial pressure in neonates, **F139**
- unintentional injury**, Accidental injury: risk and preventative interventions, **28**
- urea breath test**, *Helicobacter pylori* infection and growth delay in older children, **46**
- urinary ammonia**, Hyperammonaemia with distal renal tubular acidosis, **441**
- urinary incontinence**, The management of urinary incontinence: *personal practice*, **175**
- urinary tract infection**, Benefits of newborn circumcision: is Europe ignoring medical evidence?: *controversy*, **258**
- Early micturating cystourethrograms after urinary tract infection: *letter*, **369**
- utero-placental circulation**, Effect of antenatal administration of thyrotrophin releasing hormone on fetal flow velocity waveforms, **F127**
- vasculitis**, Antineutrophil cytoplasm antibodies and vasculitis: *rheumatology*, **261**
- vegan diets**, Persistence of neurological damage induced by dietary vitamin B-12 deficiency in infancy, **137**
- vegetarian diets**, Persistence of neurological damage induced by dietary vitamin B-12 deficiency in infancy, **137**
- venepuncture**, Is venepuncture in neonatal research ethical?, **F141**
- Neonatal pain response to heel stick vs venepuncture for routine blood sampling, **F143**
- verocytotoxin-producing *Escherichia coli***, Cytokines in haemolytic uraemic syndrome associated with verocytotoxin-producing *Escherichia coli* infection, **145**
- very low birthweight**, Diagnosis of late onset neonatal sepsis with cytokines, adhesion molecule, and C-reactive protein in preterm very low birthweight infants, **F221**
- very low birthweight infant**, Randomised controlled trial of an aggressive nutritional regimen in sick very low birthweight infants, **F4**
- vesicoureteric reflux**, Early micturating cystourethrograms after urinary tract infection: *letter*, **369**
- villi**, Aging of the placenta: *editorial*, **F171**
- visceral injuries**, The range of visceral manifestations of non-accidental injury: *personal practice*, **167**
- vision**, Basal ganglia damage and impaired visual function in the newborn infant, **F111**
- visual evoked potentials**, Basal ganglia damage and impaired visual function in the newborn infant, **F111**
- vitamin A**, Vitamin A prophylaxis: *annotation*, **191**
- weekends**, Why is sudden infant death syndrome more common at weekends?, **415**
- weight**, Height and weight in cystic fibrosis: a cross sectional study, **497**
- weight gain**, Randomised controlled trial of zinc supplementation in malnourished Bangladeshi children with acute diarrhoea, **196**
- wet nurse**, Paulus Aegineta (625–690 AD) and Byzantine medicine: *perinatal lesson*, **F155**
- Global themed issue Aging and paediatric practice: editorial**, **F161**
- whooping cough**, Aetiology of asthma: *letter*, **188**
- World Wide Web**, Can paediatricians benefit from the Internet?: *personal practice*, **179**
- zinc supplementation**, Randomised controlled trial of zinc supplementation in malnourished Bangladeshi children with acute diarrhoea, **196**
